

SHERPASCOPIC FOLDING GUARDRAIL

Extra compact

This aluminium mobile platform with fold-away guardrails sets the standard for telescopic platforms. Available with 4-6 steps and working heights up to 3,53 metres, its reinforced uprights, wide platform, adjustable stabilisers and fold-away guardrail make the Sherpascopic an extremely robust product that requires very little storage space. It has a tool carrier, transport wheels and 80 mm steps. It meets the PIR-PIRL standards for mobile platforms, complies with decree 2004-924, standard EN 131-7 and has the NF quality label.

- ▶ Intuitive high-resistance level offset system.
- ▶ Solid guardrail.
- ▶ Stabilizers with a patented millimetric adjustment system.
- ▶ Non-slip 600 x 420 mm platform with integrated toe boards.
- ▶ Extremely strong handrails and ribbed non-slip rungs crimped in place (30 x 30 mm).
- ▶ Automatic interlock between the different elements.
- ▶ Easy transport and storage.

Product characteristics

Use	Ultra intensive
Type of floor	Flat and uneven floor
Max work / access height (m)	3,53
Material	Aluminium
Maximum load (kg)	150
Warranty (years)	5
Standard	PIRL NFP 93353 ; PIR NFP 93352 ; EN 131-7
Decree	2004//924
NF Label //	

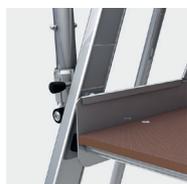

Intuitive stabilizer adjustment

Sliding section lock, patented system

Rear anti-lift locks

Evolution of guardrail locking system

Delivered in shrink film with POS brochure. The platform is counted as a step.
