

INSULATED SHERPA - BRACES GUARDRAIL

THE COMFORT OF A SHERPA, WITH THE ADDED BONUS OF INSULATION

The insulated Sherpa is the leading fixed individual workstation on the market for the electrical trade.

Safety first: This Sherpa meets the requirements of the applicable French and European standards, enabling users to work safely, offering them protection against low-voltage currents (<1,500 volts), and it features a semi-automatic rilsan-coated guardrail which is easy for users to set up.

Comfortable working in any situation: The insulated Sherpa is easy to transport thanks to its large ribbed wheels, and it offers a large workspace.

A responsible product: The insulated Sherpa is the result of an exacting designed process, taking challenges such as sustainability, recyclability, and CO2 impacts into consideration at every stage, from manufacturing to end-of-life.

Class	Professional
Use	Ultra intensive
Type of floor	Flat surface
Material	Glassfiber / Aluminium
Max load (kg)	150
Warranty (year)	2
Standard	EN 131-7 / PIRL NF P 93353 / EN50528
Decree	2004-924

Insulated fiberglass uprights Covering non-slip footpads Ribbed all-terrain wheels Ø175mm Anti-lift floor hook Guardrails with braces and insulating rilsanised protection

Guardrail positioning system Insulated fiberglass uprights High comfort 600x400mm non-slip platform in eco-sourced wood High comfort 600x400mm non-slip platform in eco-sourced wood XL 25 kg resistance tray

Insulated sherpa braces guardrail 4 steps

- The fiberglass material used for the uprights means users are protected from electric shocks while working
- 4-sided rigid guardrail with braces and insulated rilsan-coated protection
- 80 mm non-slip steps
- Detachable compartmentalised tool holder, can hold up to 25 kg, with integrated hooks (10 kg)
- XL tray supporting up to 25 kg

- High comfort 600 x 400 mm non-slip floor in ecologically sourced wood
- Ergonomic and comfortable workspace
- Retractable stabilisers with millimetric adjustment system
- All-terrain Ø 175 mm moving wheels
