

# EXCAVATION LADDER

## NEW GENERATION LADDER THAT PROVIDES ACCESS UP TO 4.73 M

This aluminium ladder enables descent into the excavations from 0.57 to 4.73 m. Its 80 mm steps, access ramps, swivelling skids and front exit guarantee perfect safety for the user. This ladder was made ultra practical in 2021 thanks to its telescopic system, adjustable feet, lifting rings and transport wheels.

- ▶ + safety: a front exit way at platform level for easier access. 2 ramps to ensure complete safety when climbing up and down.
- ▶ + convenience: folding platform to minimise storage space and facilitate transport. 2 wheels to simplify product movements.
- ▶ + modularity: telescopic models to adapt to all sites (foundations, excavations, etc.).

### Product characteristics

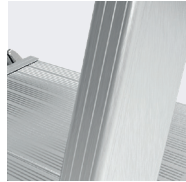

<b>Max access / working height (m)</b>	4,73
<b>Material</b>	Aluminium
<b>Maximum load (kg)</b>	150
<b>Warranty (years)</b>	5

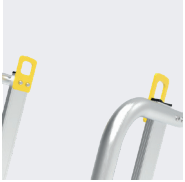

Non-slip steps 80 mm

Non-slip swivelling skids to adapt to all situations

Reinforced studs

Standard lifting rings

Wheels for ease of movement

Telescopic ladder
