

WINDOW CLEANER

THE REFERENCE FOR CLEANING PROFESSIONALS

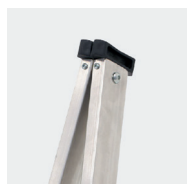

The main feature of the all-aluminium ladder, specially designed for window cleaners is that it has only one contact point on the surface to be worked on and provides access to a working height of from 2m58 to 4m82 without tools.

- ▶ Three sections that simply fit together without screws or tools.
- ▶ The top rubber footpad provides a single contact point with the surface to be worked on, protects windows from contact with the metal and ensures the worker's safety
- ▶ 1 pack = 5 modules + 1 ridge hook + 1 extra-wide support kit

Product characteristics

Use	Regular
Type of floor	Flat floor
Max access / working height (m)	4,82
Material	Aluminium
Maximum load (kg)	150
Warranty (years)	5
Standard	Not covered by European standards

Overhanging footpads for supporting on windows

Junction part for interlocking

For use leaning against a wall with the rubber footpad
